Hear The Legends. Not The Static.

The greatest voices and stories of classic radio, restored for a cleaner, richer listening experience.

What sets Hollywood 360 apart is its commitment to sonic fidelity. Working directly with rights holders and private estates, **Hollywood 360** utilizes original master recordings, subjecting them to meticulous digital remastering. The result is a pristine listening experience—free of static, clicks, and distortion—that restores these historical treasures to modern broadcast standards.

Long before television and podcasts captured the cultural imagination, radio reigned supreme as the ultimate medium for storytelling and entertainment.

Hollywood 360—hosted by veteran broadcast historian Carl Amari and co-hosted by Lisa Wolf—invites audiences on a weekly, five-hour journey into the golden age of "theater-of-the-mind" broadcasting.

Designed as both a nostalgic voyage for longtime enthusiasts and a captivating discovery for younger generations, the program showcases legendary series such as *The Shadow*, *Suspense*, *Jack Benny*, *The Green Hornet*, *Dragnet*, and *Our Miss Brooks*, alongside thousands of other classic titles.
